*Uninterrupted Soft Water to serve  
your Community Needs*

**IAWTS 57T**  
**IAWTS 85T**

## Twin Alternating Valve (TAV) Systems compatible with WTS 57 & WTS85

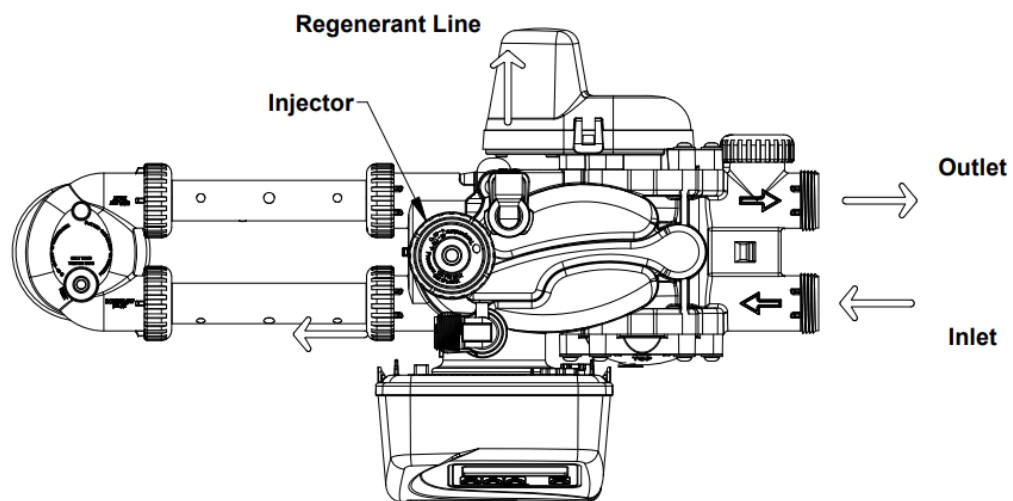

**How:** A twin tank system with integrated valve system in factory made condition having 2 resin tanks connected with a single brine tank

**Advantages:** 24/7 uninterrupted supply of soft water without a break time for softening. No limit on daily consumption or number of regenerations.

Best Suitable for Farmhouses with multiple families, Joint family houses and Small to Medium apartment buildings.

**Working:** The system works as A&B, one working one standby mode. While A is in service B will undergo regeneration and will be ready for switchover and vice versa.
